

## Investment Banking Summer Analyst (2025)

### About Us

-----  
Guggenheim Securities' Technology, Media & Telecom (TMT) group provides M&A and capital markets advisory to high-growth software, internet and information services companies. We combine deep sector knowledge with a data-driven approach to deliver differentiated insight to our clients.

### Role Overview

-----  
Summer Analysts work directly with senior bankers on live and origination mandates. You will build detailed financial models, construct valuation analyses (DCF, precedent transactions, trading comps, LBO), draft client presentations and support the execution of sell-side, buy-side and financing transactions.

### Key Responsibilities

- Perform company & industry research, financial statement analysis and benchmarking using Capital IQ, S&P NetAdvantage and proprietary datasets.
- Build three-statement operating models in Excel and automate sensitivity cases in Python / R.
- Draft pitchbooks, CIMs and management presentations in PowerPoint.
- Support due diligence workstreams, data room management and process timelines.
- Present investment theses to deal team and clients.
- Uphold the highest standards of integrity, intellectual curiosity and attention to detail.

### Required Qualifications

- Rising junior (Class of 2026/2027) pursuing a B.A./B.S. in Finance, Applied Statistics, Economics, Computer Science or a related quantitative field; GPA  $\geq 3.7$ .
- Strong coursework in financial accounting, corporate finance, statistics, regression analysis and computational problem solving.
- Outstanding analytical and financial modeling skills; demonstrated proficiency with \*\*Excel\*\*, \*\*Python\*\*, \*\*R Studio\*\* and \*\*SQL\*\*.
- Familiarity with S&P Capital IQ and S&P NetAdvantage.
- Exceptional written and verbal communication skills.

### Preferred Experience

- Prior internship in investment banking, private equity, venture capital, or student-managed investment fund.
- Leadership roles in finance, consulting or quantitative clubs.
- Proven ability to manage multiple workstreams under tight deadlines.

### Compensation & Timeline

- 10-week program, June–August 2025, based in New York, NY.

- Competitive salary and housing stipend.
- High-performing interns receive return offer consideration for the 2026 Summer Analyst program.

#### How to Apply

-----

Submit your resume, unofficial transcript and a brief (≤250 words) statement on why you are passionate about technology M&A by \*\*May 31, 2025\*\*.
